REPORT OF SUPERINTENDENT OF SCHOOLS.

To the Citizens of Nottingham:

In the ten years since the adoption of the present school law in 1919, notable progress has been made in education throughout the state. Among the notable features of that progress is *equalization*, by which the crumbs that fall from the tables of the wealthy communities furnish a substantial meal of state aid for the less wealthy towns. Another feature of this decade of school progress is the lengthening of the school year throughout the state to 36 weeks, with a 3.2 per cent increase in average attendance at the same time. In other words, we have added one and one-third years to the average schooling of children in the small towns by furnishing eight full years of 36 weeks each. Moreover, high school enrollment has increased one-third, or nearly seven times as fast as elementary enrollment. Normal school enrollment has increased from 240 to 924, with a decrease in per capita cost to the state from \$324 to \$135 per student. This has enabled an increase in the proportion of trained teachers from 63 per cent to 83 per cent of the total number. Nottingham is one of the towns in the state sharing most liberally in the benefits of this law and the attendant progress, receiving professional supervision, trained teachers, health services of the nurse, transportation, better equipment, and all this at a figure far below cost.

The superintendent, nurse and teaching staff remain the same as last year. Through a re-arrangement of the union, Nottingham and five other districts now constitute North-

wood-Newmarket Supervisory Union No. 44. Miss Ruth B. Whitcomb, R. N., continues her regular work of health examination and in addition is frequently called upon for consultation in regard to health conditions. By accompanying children to special clinics, she makes the services of medical specialists available at very low cost.

Playground apparatus has been purchased for both schools, and will undoubtedly prove valuable in "providing for the health and physical welfare" of the pupils.

Out of seven pupils graduating from the eighth grade in June, all but one entered a secondary school. This is a good record, especially considering the fact that pupils have to go out of town to attend high school.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools.
